DETAILED ACTION

The finality of the last office action is being withdrawn to apply art to claim 36.

The finality of the last office action is withdrawn.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claim 36 is rejected under 35 U.S.C. 102(e) as being anticipated by Brisco.

Brisco discloses a casing fill up and circulation apparatus. A body 16,28 has a first port 42 and a second port (the internal passageway of the tool) to provide communication with an interior of the casing. The tool is inserted into the casing. A seal 106 is mounted on the body and is engageable with the casing when the tool is inserted into the casing. Valve assembly 90 controls flow through the second port and means 50 acts as a valve and is considered a valve for controlling flow through port 42.
